11) How much did you learn from this course?

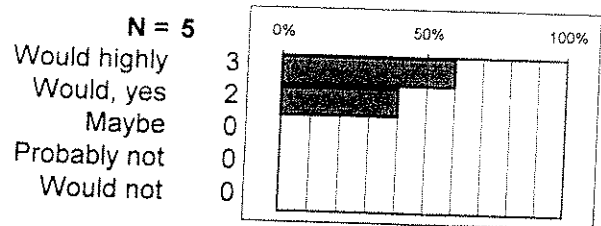

12) What is your overall assessment of this course?

13) What is your overall assessment of the instruction in this course?

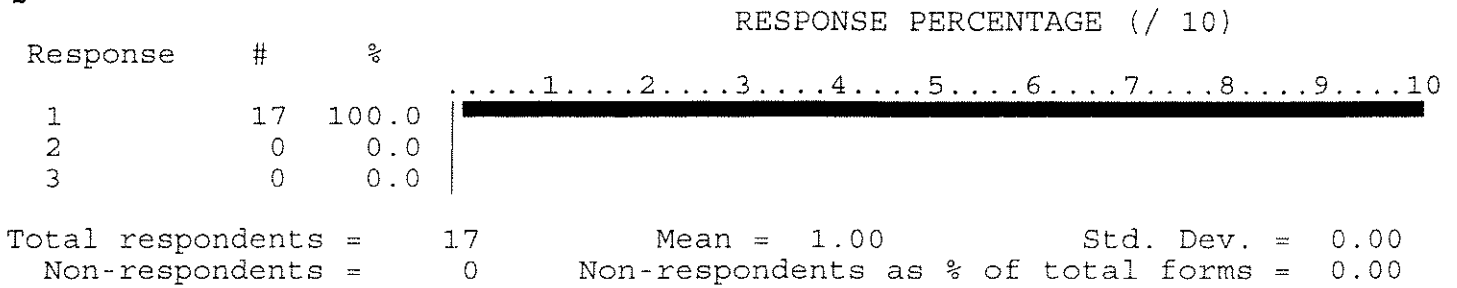

14) Would you recommend this instructor to other students?

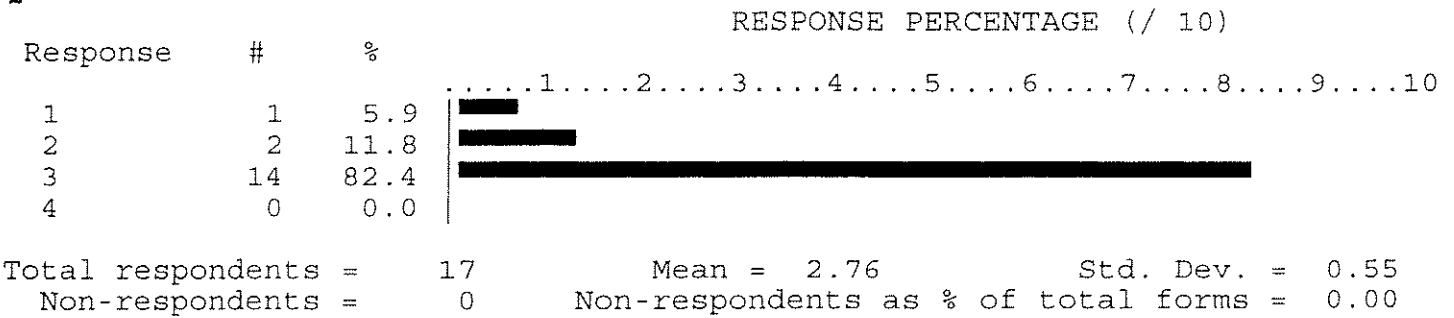

The comments below appear exactly as they were entered by the student.

- Student 1 I am a &quot;nontraditional&quot; student. I wish this course would have been mandatory when I went to school the first time. There is so much to think about. I also have two kids in college. I wish they would have had to take something like this at their school.
- Student 2 The assignments were thought provoking and I learned a lot about myself by doing them. I also gained a sense of confidence and satisfaction in that I was able to learn how to transfer files and navigate the Blackboard learning system. I feel confident enough in my computer skills now that I would definitely take another INET class in the future.
- Student 3 Not bad for a first time online course
- Student 4 I think there should be more eesays than 200 word papers
- Student 5 This course was fun, but it was too easy. I think you could require more out of it, which would make your students learn more.

I think College study and study skills shouldn't both be done at the same time because they both are very similar, but on the other hand doing both could help you to get good grade, it might be easier to remember the material.

This course is extremely boring and basic common sense, but our instructor made it interesting and got us all involved, so it turned out to be fun with him instructing us

Why don't we take this class in high school? Why learn how to go to college  
in college.

15) Why don't we take this course in high school? We wouldn't know it before we would start, this would help us more on tests that are given before this class is over.

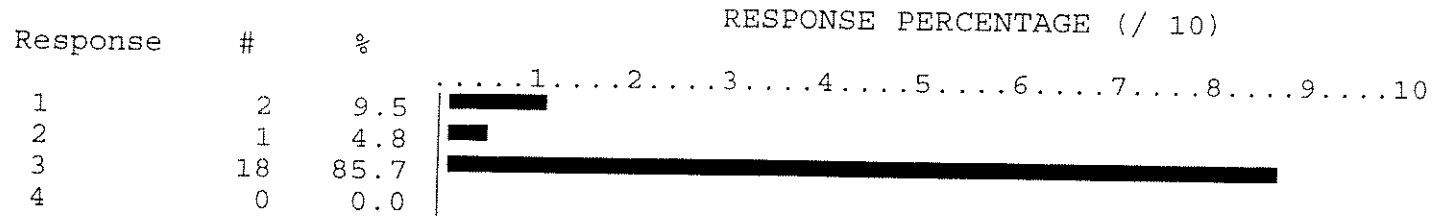

It was pretty good.

I really enjoyed this class, what little class-time we got. I really like the effort that you put into the class as for us students learning. I was a little nervous to take the class but after the first day I knew that it would not be that bad. So I guess what I am trying to say is don't let other students make you doubt yourself. If one student in one of your classes learns one thing, then you have succeeded. Just keep that in mind for next semester. And most of all, thank you.

I think that  
a very good instructor.

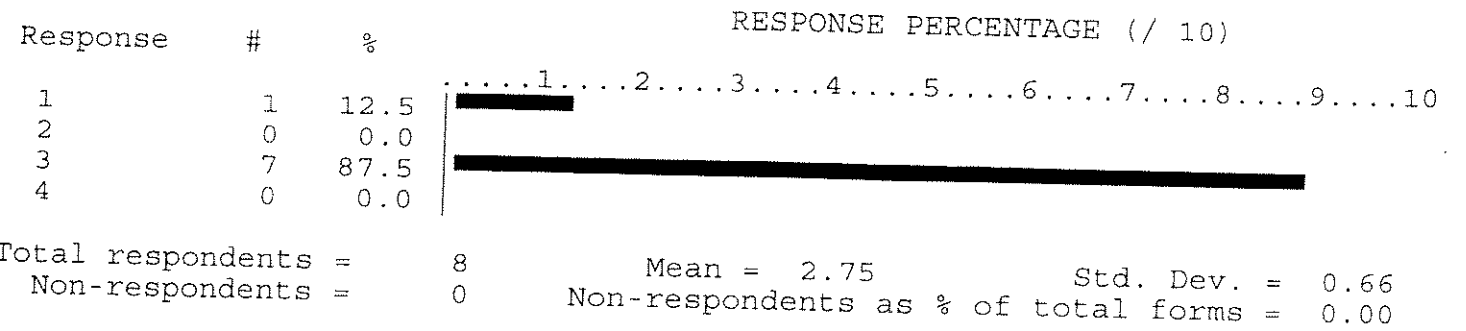

is an alright person, but is not
